

A Place to Share Thoughts and Interests

MTwallets is a place I'm sharing thoughts, ideas, interests, and efforts. I enjoy a wide range of reading, learning, engineering & science, building, woodworking and other interests. I like to break things down so I can appreciate details. My goal is to have some fun learning and sharing here!

I encourage any students with technical or career questions to ask them here!

Subscribe to MTwallets to receive updates!

Please also offer comments, ideas, and questions via "Disqus" beneath every post.
